Sector	Minimum Temperature (°C)	Maximum Temperature (°C)
Coast	25	33
Forest	23	35
Transition	22	35
Northern	24	39

SUMMARY: Early this morning, mist or fog patches will develop within the coastal, forested and hilly areas, resulting in reduced visibility amidst partly cloudy conditions. From late afternoon into the night hours, Rain-bearing clouds are expected to form and produce rainfall and thundery activities of varying intensities over parts of middle, transition and northern sectors of the country. Some towns to be affected include: *Sefwi Wiawso, Kumasi, Kintampo, Techiman, Sunyani, Bechem, Bole, Yendi* among others. Meanwhile, fairly dry and hazy conditions will dominate some portions of Northern Ghana throughout the forecast period. Nationwide visibility is expected to range between *3000 meters* and *10000 meters*.
