**SUMMARY:** Mist or fog patches are expected over parts of the coastal and forest areas early this morning. As the day progresses, sunny conditions will prevail across all sectors of the country. However, isolated thunderstorms or rain are likely over parts of the middle and transition sectors, and even parts of the Upper West Region, from late afternoon into the evening, while slightly hazy conditions are expected over the northern sector throughout the forecast period.

The public is advised to take precautions during outdoor activities under the warm and sunny conditions. Drink plenty of water to stay hydrated, wear light clothing, and avoid prolonged exposure to direct sunlight. **Happy Independence Day!**
