Forest	23	36
Transition	22	38
Northern	25	39

SUMMARY: Partly cloudy conditions will predominate across most parts of the country during the morning hours, with patches of mist or fog likely to develop in some areas, particularly in the early hours. During the afternoon, conditions will transition into generally sunny periods with intermittent cloud cover, resulting in intensified heat over some locations. **Localised thunderstorms** accompanied by **rain** are anticipated to develop over parts of the inland areas of the **coast, middle and transition** sectors from late afternoon into the evening, while slightly hazy conditions will continue to prevail over the upper regions of the northern sector.
