**Urgency:** Expected

**Severity:** Severe

**Certainty:** Likely

**Issued:**

Tue 10 Mar 2026  
17:35

**Effective:**

Tue 10 Mar 2026  
17:00

**Onset:**

Tue 10 Mar 2026  
18:00

**Expires:**

Tue 10 Mar 2026  
22:00

**Area:**

Northern, Oti, Volta, Eastern, Bono East, Ashanti

**Description:**

A band of rain and thunderclouds has been detected along the Ghana-Togo border and is tracking westward into Ghana. Northern, Oti, and Volta regions are expected to experience rainfall of varying intensity accompanied by thunder between 6:00 PM and 9:00 PM. The system will continue its westward drift after 7:00 PM, extending its impact to parts of the Eastern, Bono East, and Ashanti regions through the evening hours.

**Instruction:**

Residents in all affected regions are advised to stay indoors and avoid unnecessary travel during the storm period. Secure loose objects, stay away from flooded roads and waterways, and keep children and livestock sheltered. Motorists should reduce speed, use headlights, and exercise extra caution on roads. If caught outdoors, seek shelter immediately and avoid standing under trees or near tall structures. Stay tuned to official weather updates for further developments.
