**SUMMARY:** This morning, partly cloudy will dominate most parts of the country with few cases of mist or fog patches along the coastline, mountainous and forest areas. Sunny with high temperatures will be experienced across all sectors from mid-morning into late afternoon. However, formation of rain and thunder clouds are expected to produce localised rain or thunderstorms over parts of the middle and transition sectors from late afternoon into the evening hours. Meanwhile, the northern sector will remain generally hot and sunny, with slightly hazy conditions prevailing over the upper regions.
